Saudi Arabia Perfume Market Analysis:

The Saudi Arabia perfume market size reached US\$ 1.6 Billion in 2021. Looking forward, IMARC Group expects the market to reach US\$ 2.1 Billion by 2027, exhibiting a growth rate (CAGR) of 4.59% during 2022-2027. Perfume refers to a fragrant liquid which is prepared by combining

alcohol, aroma compounds, water, essential oils, solvents, and fixatives. It is formulated based on various scent families, such as oriental, musk, green, floral, woody, amber, herbaceous, etc. Perfumes have become a necessity and are used daily. They assist in enhancing the overall personality of a person by offering a pleasant fragrance to the human body. Perfumes influence the mood, behavior, perception, emotions, and thoughts of an individual. They are extensively available in supermarkets, specialty stores, hypermarkets, online channels, etc., across the country.

Saudi Arabia Perfume Market Trends and Growth Drivers:

The escalating product demand, on account of the rising willingness of women and men to improve their essence, is among the primary factors driving the Saudi Arabia perfume market. Besides this, the growing popularity of authentic ingredients, including amber, oud, musk, exotic flowers, etc., that have a rich and warm oriental aroma is further augmenting the market growth. Moreover, international perfume houses are setting up their bases in the country. They are increasingly serving their products to the local population by incorporating traditional oriental notes and introducing contemporary fragrances, which, in turn, is also catalyzing the [perfume market across Saudi Arabia](#). Apart from this, the development of devices that assist the consumers in creating personal fragrances by combining several spices, aromas, and essential oils is acting as another significant growth-inducing factor. Furthermore, the emerging trend of personal grooming and the increasing need for youth-oriented and exotic scents among the masses are anticipated to propel the Saudi Arabia perfume market over the forecasted period.
