The Business Research Company

Forecast 2022-2026' published by The Business Research Company, the [antimicrobial plastics market size](#) is expected to grow from \$39.67 billion in 2021 to \$43.79 billion in 2022 at a compound annual growth rate (CAGR) of 10.38%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. As per TBRC's antimicrobial plastics market research the market is expected to reach \$63.57 billion in 2026 at a compound annual growth rate (CAGR) of 9.77%. The

increasing penetration in food and beverages, packaging, and healthcare is expected to drive the antimicrobial plastics market growth going forward.

The antimicrobial plastics market consists of sales of antimicrobial plastics by entities (organizations, sole traders, and partnerships) that are used in healthcare to reduce the spread of microorganisms such as staph, strep, and methicillin-resistant staphylococcus aureus (MRSA) infections. Antimicrobial plastics refer to synthetic polymer material containing an integrated and active component that inhibits bacteria growth. Antimicrobials can inhibit or alter one or more of the following cell functions of microorganisms such as cell wall synthesis, protein synthesis, cell membrane functions and nucleic acid synthesis.

Global [Antimicrobial Plastics Market Trends](#)

Product innovation is a key trend gaining popularity in the antimicrobial plastics market. Major market players are concentrating their efforts on creating innovative products such as Puretec.

Global Antimicrobial Plastics Market Segments

The global antimicrobial plastics market is segmented:

By Product: Commodity Plastics, Engineering Plastics, High-Performance Plastics

By Additive: Inorganic, Organic

By Application: Refining And Petrochemical, Metals, Power Generation, Others

By End-Use: Building And Construction, Automotive And Transportation, Healthcare, Packaging, Food And Beverage, Textile, Consumer Goods, Others

By Geography: The global antimicrobial plastics market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, North America accounts for the largest share.
