

Polyester Textile Filament Market 2028 : Increasing Demand from The Garment and Automotive Sector

According to Reports and Data, The Global Polyester Textile Filament Market is Anticipated To Reach USD 70.78 Billion During Forecast Period 2028

NEW YORK CITY, NEW YORK, UNITED STATES, November 30, 2022

/EINPresswire.com/ -- The Global [Polyester Textile Filament market](#) is forecast to reach USD 56.01 Billion by

2028, according to a new report by Reports and Data. Polyester Textile Filament is one of the most commonly used synthetic filament. Synthetic fibers can be described as filaments that are man-made, with the help of chemical synthesis, contrary to natural fibers that are derived from living organisms. This filament finds application in the industrial manufacturing sector and numerous other areas of application. These find usage in apparel for jackets, overcoats, and protective clothing, among others. In residential furnishings, these fibers have widespread usage ranging from curtain fabrics to furniture coverings, table and bed linen to wall and floor coverings, and pillows, and pillow stuffing. The fast-drying and lightweight features of polyester filament makes it a commonly used material in sportswear, which is expected to drive the market growth in the forecast period. Its non-biodegradable property and corrosion resistance have resulted in its wide application and demand from the automotive sector.

In regards to region, North America can be seen to occupy a considerable share of the market. The market share held by the region is attributed to the developed automotive industry and advancing apparel sector that is supporting the expansion of the market in this region.
