According to 'Application Management Services Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026' published by The Business Research Company, the application management services market size is expected to grow from $23.44 billion in 2021 to $28.30 billion in 2022 at a compound annual growth rate (CAGR) of 20.8%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The application management services market is expected to grow to $59.68 billion in 2026 at a compound annual growth rate (CAGR) of 20.5%. The high demand for mobile apps is expected to propel the growth of the application management services market.
