Enterprise Mobility Management Market 2022 -
Opportunities And Strategies - Global Forecast To
2030

According to 'Enterprise Mobility Management Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026' published by The Business Research Company, the [enterprise mobility management market size](#) is expected to grow from \$12.71 billion in 2021 to \$16.04 billion in 2022 at a compound annual growth rate (CAGR) of 26.3%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The enterprise mobility management market is expected to grow to \$42.18 billion in 2026 at a compound annual growth rate (CAGR) of 27.3%. The increasingly

The enterprise mobility management market consists of sales of enterprise mobility management solutions by entities (organizations, sole traders, and partnerships) that are used to protect and control the use of corporate and employee-owned mobile devices. Enterprise mobility management (EMM) refers to a combination of technologies, processes, and rules that are used to protect mobile devices used by corporate employees. EMM is evolving to fit an ever-changing collection of device platforms and workplace mobility trends.

Global Enterprise Mobility Management Market Trends

Product innovation is a key trend gaining popularity in the enterprise mobility management market. Major market players are focusing their efforts on developing unique solutions for data-driven insights to support businesses in making decisions like Watson Works.
