Whistleblower, Educator and Advocate

Date: Monday, Dec. 5,

Dr. Fraser will detail her own lived experience beginning in the 1980's and take the Members of the Standing Committee – the peoples' representatives – through a litany of failures of all the entities that are set up in our society to protect people and especially the vulnerable, from abuses of any kind.

According to Dr. Fraser, " Those who enable abuse are not just accomplices to the harm being done to victims, their re-victimization does as much if not more harm according to extensive scientific research. Until we hold those who commit betrayal trauma accountable, the army of enablers will continue to cover up abuse and perpetuate the cycle."

[Forward](#), President of Whistleblowing Canada says, "We all should stand in awe of the dedication, determination and commitment of Dr. Fraser in her efforts to bring this subject into the consciousness of those who can do something about the problems and failures she exposes. We stand with her in her calls for the highest political power in the land to use this power urgently to act to fix the problems and repair the damage for future generations".
