*The Business Research
Company*

forecasts the nephrology and urology devices market share to reach a value of \$17.27 billion in 2022 at a compound annual growth rate (CAGR) of 8.9%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The nephrology and urology devices market is expected to grow to \$21.6 billion in 2026 at a CAGR of 5.8%.

The increase in the patient pool due to the rising geriatric population globally contributed significantly to the growth of the nephrology and urology devices industry during the historic period.

Nephrology And Urology Devices Market Trends

The nephrology and urology market is witnessing a rise in new product launches. Due to the high competition in the market, many companies are investing in advanced technologies to widen product portfolios and increase their share in the market. For instance, in March 2020, Medi-Tate an Israel-based medical device company received authorization for iTind system that is used to implant and remove nitinol devices during bladder neck remodelling. Researchers at Washington University in St. Louis, the University of Illinois at Urbana-Champaign, and Northwestern University together developed a wireless implant to control overactive bladder using LED lights.

Nephrology And Urology Devices Market Overview

The nephrology and urology devices market consists of sales of nephrology and urology devices and related services by entities (organizations, sole traders, and partnerships) that produce nephrology and urology devices used in the diagnosis and treatment of kidney and genitourinary diseases.
