Smart Insulin Pens Market Trends

The next generation of smart insulin pens goes far beyond memory storage. They help in calculating personalized doses, track glucose continuously, and connect with apps of

smartphones to visualize the data. In 2019, Novo Nordisk and Abbott partnered to integrate insulin dose data into the digital health tools which aim at connecting key technologies such as continuous glucose monitoring and insulin pens thus simplifying diabetes management. The NovoPen 6 and the NovoPen Echo Plus pens will be able to connect to the Dexcom G6 CGM and the Diasend diabetes management platform (Glooko). In 2019, Companion Medical announced that the Bluetooth-enabled InPen which takes away the guesswork from dosing insulin with an in-app bolus calculator that uses precise carbohydrate ratios and correction factors and calculates the personalized insulin doses. This enhances the ease of usage of smart insulin pens which is expected to boost the market.

### [Smart Insulin Pens Market Overview](#)

The smart insulin pens market consists of sales of smart insulin pens which allows to dial the insulin dose accurately and related products. The smart insulin pens are injector pens with the needle that help people with diabetes to manage insulin delivery. It is connected with a smartphone app that automatically records the dosing information of each injection and provides assistance with dosing.
