Bulk Bag Users Will Now Have Increased Access to Fusion® non-sewn bulk bags.

With Fusion® bulk bags now used in several industries, including food products, resins, and specialty chemicals, it was time to add members to the Fusion® production team. Plastene Ltd. was an easy choice with its history of excellence.

Plastene Ltd is the second company licensed to produce Fusion® bulk bags from India. They will double the current capacity of Fusion® production in India. We believe that their addition to the Fusion® network will help to expand not only the usage of Fusion® bulk bags but will also further add to the technology of the Fusion® system.

Founded in 1985, AmeriGlobe LLC is a worldwide leader in the FIBC business and the inventor of Fusion®.

AmeriGlobe offers a wide range of bulk bag solutions and the rights to manufacture Fusion® bulk bags.
