Growing demand for ethyl acetate from end-use industries such as paints & coatings, printing inks, and nail polish removers is expected to drive the growth of the global ethyl acetate market. The increasing demand for vinyl polymers in numerous industries, such as automotive, construction, packaging, and electrical & electronics, is also expected to boost the demand for ethyl acetate during the forecast period.

The market is segmented by product type, end-use industry, and region. On the basis of product type, the market is segmented into food grade and industrial grade. The food grade segment is expected to dominate the ethyl acetate market, due to its increasing use in the food & beverage industry.

The end-use industries segment of the global ethyl acetate market is divided into paints & coatings, printing inks, nail polish removers, adhesives & sealants, and others. The paints & coatings segment is expected to dominate the market, owing to the increasing demand for ethyl acetate as a solvent in the paints & coatings industry.
