

Omaha Warehouse Staffing Agency Provide 5 Key Tips for New Warehouse Managers

LaborMax Staffing, staffing agency in Omaha, released a white paper on five key tips for new warehouse managers

OMAHA, NEBRASKA, USA, December 5, 2022 /EINPresswire.com/ -- The top agencies to find [jobs in Omaha](#), released a white paper on five key tips for new warehouse managers. Managing day-to-day warehouse operations is no easy feat, especially for those new to the role. Supervising a team of people who work together to reach a common goal requires unique skills and a willingness to adapt to changing circumstances in a fast-paced warehouse.

Hiring in Omaha

The first tip that was mentioned was prioritizing employees' benefits. "Warehouse work is intense and physically demanding. As a manager, it's your responsibility to see to the well-being and comfort of your employees," Jenny Moraga stated, who is the owner of LaborMax Staffing in Omaha. "If your team members are stressed and overworked, it will affect productivity, safety, and customer satisfaction." Some ideas mentioned for prioritizing employees' benefits were getting feedback, prioritize wellness, designated break areas, and access to a kitchen. The white paper also mentions working with your local general labor [staffing agency in Omaha](#) or surrounding areas – especially during seasonal crunches or tight deadlines – to help prevent burn outs.

The second tip that was mentioned was providing training opportunities. A warehouse is only as efficient as its workers, which is why proper training is essential. LaborMax mention that

employees must understand processes, technologies, equipment, and organization to do their jobs. As technology evolves, processes change, and skills learned, new managers should stay on top of skills and safety training, providing new material and refresher courses as needed.

Keeping the warehouse organized was the third tip. "An organized warehouse helps employees remain productive and efficient even as orders increase. Cluttered work areas slow workers and create unsafe conditions, leading to accidents and injuries," Moraga stated. "Create set locations for all products and equipment. Audit the warehouse quarterly to ensure you are using space appropriately. Label all products and inventory according to industry standards. Place like items together."

Avoiding micromanaging was the fourth tip mentioned. Although accuracy, safety, and efficiency are essential in every warehouse, no employee appreciates a manager constantly hovering over them to ensure they don't make a mistake. Throughout the white paper, it mentions to consider ways to help workers remain productive when unexpected events necessitate changes in the workflow without making them feel like they aren't doing their jobs.

Finally, the fifth tip was delegating tasks efficiently. "It's easy for new managers to get bogged down in the details of warehouse operations, but it's crucial to stay focused on the big picture of the entire facility," Moraga stated. "By getting to know the capabilities of your staff, investing time in regular training, staying organized, and delegating tasks efficiently, you'll create an environment where schedules run smoothly, deadlines are met—and your employees thrive."

An advertisement for LaborMAX Staffing. The top half shows a woman in a black uniform and white shirt, likely a hotel housekeeper, leaning over a bed with white linens. The background is a wall with a pattern of tulips. The bottom half is a black banner with white and red text. The LaborMAX Staffing logo is in the top right. Below it, the text "NOW HIRING Hotel Housekeeping" is written in white. A large red banner with the phone number "(402) 819-4944" in white is in the center. At the bottom right, the address "4526 S 84th St, Omaha, NE 68127" is listed, followed by a red button with the text "Contact Us" in white.
