The cutting equipment, accessories, and consumables market consists of sales of cutting equipment, accessories, and consumables products by entities (organizations, sole traders, and partnerships). These are the metal tools that are used for cutting, removing, and shaping materials using shear deformation. Cutting equipment, accessories, and consumables are also known as "cutters used for cutting materials." They refer to a pointed tool that is mounted on a machine tool and used for cutting. This can be done using either multi-point or single-point tools.
