Global Forecast 2022-2026' published by The Business Research Company, the [data center liquid cooling market](#) size is expected to reach a value of nearly \$ 2.67 billion in 2022 at a compound annual growth rate (CAGR) of 26.2%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The data center liquid cooling market is expected to reach \$ 6.20 billion in 2026 at a CAGR of 23.4%. The increasing number of data centers and server density is expected to propel the

growth of the data center liquid cooling market going forward.
