

Christie Digital partners with Part Analytics to manage supply chain disruptions and build supply chain resilience

MILWAUKEE, WI, US, December 8, 2022

/EINPresswire.com/ -- Part Analytics, the AI-powered sourcing platform that helps businesses build supply chain resilience, accelerate product development, and improve gross margins today announced that Christie Digital Systems has selected Part Analytics to drive the digital transformation of its supply chain and build resilience. Christie Digital Systems is a global audiovisual, content management, and image processing technologies company and a wholly owned subsidiary of Ushio Inc., Japan (JP: 6925).

"We are thrilled to be selected by Christie Digital Systems to support them in their Supply Chain Digital transformation initiatives," said Jithendra Palasagaram, founder & CEO for Part Analytics. Part Analytics' integrated sourcing platform was purpose built for Engineering and Sourcing teams at companies like Christie Digital to provide cost optimization and risk mitigation insights and to enable seamless collaboration internally and with suppliers throughout the product lifecycle.

Christie Digital's Sr. Director of Supply Chain, Michael Marsh commented, "We were impressed with the capabilities of Part Analytics to provide a comprehensive view of our direct material spend, savings opportunities, risk and recommended mitigation actions in a single platform. We really like that the platform is configurable, intuitive, and easy to use. This will help us to better collaborate internally and with our suppliers throughout the product lifecycle and make smarter, faster sourcing decisions."

Founded in 2019, Part Analytics serves a diverse set of customers in the manufacturing space,

including aerospace & defense, electronics manufacturing, industrial, medical device, and telecommunications equipment manufacturing. Its Direct Material Sourcing platform has been recognized by sourcing and manufacturing experts, such as SpendMatters, Digital Procurement World.

About Part Analytics
