

Gade Masonry and Landscaping now known for installing inground pools

Gade Masonry and Landscaping, a high-end landscape installer has a little secret, they also install inground pools, completing their outdoor oasis' projects

CAPE COD, MASSACHUSETTS, UNITED STATES, December 21, 2022 /EINPresswire.com/ -- Gade Masonry and Landscaping is a longstanding, high-end masonry contractor and landscaper based on Cape Cod- who, as of 2022 has officially launched its pool division-

But who are they, and why would you trust and contract them with such an elite service as an inground pool installation?

Gade Masonry and Landscaping was founded on pursuing the "American Dream" with faith and admiration.

Rafael immigrated to the United States over a decade ago, with a wife and child back home, in order to blaze a new trail in the land of opportunity. Sounds like a story from the 30's and 40's right? Most of our descendants have a similar history.

After spending years in the landscape industry, perfecting his craft, and partnering in another business on Cape Cod, he then sold his stake to go out on his own to build Gade Masonry and Landscaping. Gade's primary work has been elaborate masonry and craftsmanship creating impactful spaces and architecture throughout Cape Cod. Everything from small retaining walls, decorative stonework, fireplaces, and patios, from there they developed a maintenance piece to their work where they did the "softer" services everyone is accustomed to from a landscaper, mowing, spring cleanups, mulching, lawn care, irrigation, etc.

While building all of this Gade always pushed for higher and bigger projects, wanting to provide spaces that would last a lifetime, creating backdrops for memories and generations to come. Rafael and Gade's mission became to further beautify Cape Cod, as a tribute and thanks to the opportunity the region had afforded him, his family, and his team at Gade. Along came complete outdoor living spaces to the list of services provided, including outdoor kitchens spas, and lately [inground pools](#).

Prior to COVID, there had always been a demand for inground pool installers on Cape Cod, someone is always looking for a piece of privacy and paradise in their backyard. Once social

distancing and closing of public spaces began, the demand for inground pools across the nation nearly tripled, straining service providers, supply chains, and more.

Gade had always been quietly involved with [pool installations on Cape Cod](#) and had been perfecting their craft for years, everything from design, and site prep to pool coping and patios. In 2021 however, Gade made the switch to hiring several full-time employees and arming itself with the latest technology and equipment to roll out its refined pool division on Cape Cod.

What makes Gade Masonry and Landscaping a unique [pool installer](#), and why should you trust them with this new service line? Well, it primarily surrounds what a pool ultimately stands for and what you're looking for. Gade is committed to creating the most beautiful and long-lasting outdoor spaces that we can imagine, from your vision to a paper design, to reality, Gade brings it to life. Gade walks you through developing your vision to the finest detail, then provides a landscape design plan that they themselves are then responsible for delivering. Gade essentially owns the project with the client, from the first discussion to the first cookout/dip in the pool. This leaves zero opportunity for he said/she said situation by having multiple vendors on a project. Most pool installers are not landscapers, and while they may offer planting, patios, and pre-built outdoor kitchens, nothing compares to a hand-crafted, custom project made to your exact specifications, with one point of contact.
