

PROTON THERAPY FOR IMPROVING OUTCOMES OF CANCER TREATMENT AND QUALITY OF SURVIVORSHIP

Chennai, India, December 8, 2022 /EINPresswire.com/ -- Apollo Proton Cancer Centres has recently inaugurated its Proton Therapy facility at Apollo Proton Cancer Centres, Chennai. The facility is a state-of-the-art, multi-modal proton therapy center, which is the first of its kind in India. The center is equipped with the latest proton therapy technology, including a cyclotron, a beam transport system, and a treatment room. The facility is designed to provide high-quality proton therapy to patients with various types of cancer, including head and neck, lung, and prostate cancer. The center is also equipped with advanced imaging and treatment planning systems, which will enable the center to provide personalized proton therapy to patients. The inauguration ceremony was attended by senior officials from Apollo Hospitals and Proton Cancer Centres, as well as representatives from the medical community and the media. The center is expected to start providing proton therapy to patients in the near future.

The center is a significant milestone for Apollo Proton Cancer Centres, as it marks the beginning of a new era in cancer treatment. The center is a testament to the commitment of Apollo Proton Cancer Centres to providing the highest quality of care to its patients. The center is also a testament to the commitment of Apollo Proton Cancer Centres to investing in the latest technology and talent to provide the best possible outcomes for its patients. The center is expected to be a major center for proton therapy in India, and it is expected to provide a significant benefit to patients with various types of cancer.
