

Highlights from the Construction Links Network platform this week - December 8, 2022

Canada's ONLY content sharing platform for the construction, building and design community

SUNDRE, AB, CANADA, December 8, 2022 /EINPresswire.com/ --

Construction Links Network is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more. Members use this platform to share and onboard their digital content on the Internet, through social media and our popular e-Newsletters. Ideal for product / service releases, company announcements, blogs, podcasts, webinars, case studies, videos and more.

[Top news](#) has Statistics Canada reporting that the total value of building permits in Canada declined 1.4% in October to \$10.0 billion. The residential sector cooled off for a second month declining 6.4% to \$6.5 billion nationally. The total permit value of the non-residential sector increased 9.5% to \$3.5 billion. Construction intentions in the commercial component rose sharply 18.0%.

The [top video](#) is courtesy of nidus3D who give us a tour of Canada's first 3D concrete printed home. nidus3D uses a CSA-approved concrete mix, and nidus3D-pioneered onsite-manufactured lift in components to maximize the printing area of the COBOD BOD2 printer.

content sharing - construction links network
