Equipment Global Market Report 2022”, the [orthopedic braces and support devices and equipment market](#) grew from \$2.78 billion in 2021 to \$3.05 billion in 2022 at a compound annual growth rate (CAGR) of 9.8%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The orthopedic braces and support devices and equipment market is expected to grow to \$3.79 billion in 2026 at a CAGR of 5.5%. The rise in the geriatric population is driving the orthopedic braces

and support devices and equipment market.

Request a free Sample now to gain a better understanding of orthopedic braces and support devices and equipment market:

Key Trends In The Orthopedic Braces and Support Devices and Equipment Market

3M's consumer health care division issued orders to recall ankle braces and supports as the product contained undeclared natural latex rubber which may lead to allergic reactions in a few users. FDA ranked the recall as Class 2, which are labeled as products causing a temporary health issue or pose a risk of minimal adversity. Thus, any product recall may hamper the market's growth as it would create negative feedback regarding the product and people would hesitate to use the products.

Overview Of The Orthopedic Braces and Support Devices and Equipment Market

The orthopedic braces and support devices and equipment market consist of sales of orthopedic braces and support devices and equipment and related services. Orthopedic braces and support systems are primarily used in injury prevention, injury rehabilitation, post-operative care, and osteoarthritic care. These are also used to protect, support, and strengthen the joints and muscles and are used by athletes to prevent themselves from injuries.
