Wall Décor Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026

According to 'Wall Décor Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026' published by The Business Research Company, the wall décor market size is expected to reach a value of nearly \$ 52.70 billion in 2022 at a compound annual growth rate (CAGR) of 6.9%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The wall décor market is expected to grow to \$ 62.56 billion in 2026 at a CAGR of 4.4%. The increasing inclination toward creating an aesthetic look in households and offices is expected to

The wall décor market consists of sales of wall décor and related products by entities (organizations, sole traders, and partnerships) that are used to create the aesthetic look of

households and office walls to give an artful appearance. Wall decors are decorative items such as paintings, wall art, clocks, decals, and others that are used in home décor to create an ambiance that enhances the touch and feel of the room, making the place more connected and increasing the value of the property.

Global Wall Décor Market Trends

New product innovations are the key trend gaining popularity in the wall decor market. Major companies operating in the market are introducing new products to gain a competitive advantage. For instance, in December 2020, Spacekit, a US-based home décor company, launched a customizable, modular wall décor system for homes and offices. These are made up of designed strips and variously textured art panels that can be hung in a variety of ways. Spacekit's snap-and-go design and self-contained framing system allow easy reconfiguration and even removal when changing up a room, or moving to a new home. The panels are made from a 100% tree-free, wood alternative, making them a stylish and sustainable design choice.
