www.mesotheliomaoptions.com

The Steinberg Law Group has decades of experience in handling mesothelioma and other asbestos-related cases. With offices in New York, California and Texas, the Steinberg Law Group has a national footprint that helps win the best possible financial compensation for clients.

www.mesotheliomaoptions.com

Typically, asbestos exposure will have occurred sometime between the 1950s and the 1980s. Some of the most prevalent professions that encountered large quantities of asbestos include

SLG

THE STEINBERG LAW GROUP

The Steinberg Law Group has decades of proven experience and the resources to help victims of asbestos exposure and their families obtain the financial compensation they deserve. All of it.

We can help you find the top doctors and treatments from coast to coast.

power plant workers, maritime workers, industrial workers, plumbers, pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is approximately 40 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2022 were exposed decades ago.

www.mesotheliomaoptions.com

We support our military veterans.

Although Connecticut has no known natural asbestos deposits, asbestos was used in many industries within the state. A number of buildings in Connecticut were constructed using asbestos products, making it imperative that any remodeling and/or demolition be handled by a certified asbestos abatement specialist. Residents of Connecticut who worked in the shipyards, mines, power plants, factories and the military have an elevated risk of developing an asbestos-related illness. www.mesotheliomaoptions.com
