I strive to showcase more female entrepreneurship in the NFT and gaming arena, which is why I have created a strong support group on WhatsApp, HerBlockchain, later to be a platform to encourage more powerful women speakers. I am also extremely fortunate to have had the opportunity to interview Grace, the AI robot at ETM2022. I am incredibly proud of my invaluable team members working alongside me throughout the event. "What a superb opportunity for many Metaverse/Gaming/NFT and Web3 entrepreneurs to share ideas and thoughts to move and educate the community and the industry. This is a brilliant moment for capital raising to occur when the industry is still in its early stages.
