A numerous markets, marketing strategies, trends, future products and rising opportunities are taken into consideration while studying market and preparing this report. The chief areas covered in the wide ranging [Stoma/Ostomy Care](#) market report include market definition, market segmentation, competitive analysis and research methodology.

Data Bridge Market Research analyses that the stoma/ostomy care market, which was USD 3.71 billion in 2022, is expected to reach USD 5.78 billion by 2030, at a CAGR of 5.7% during the forecast period 2023 to 2030. In addition to the insights on market scenarios such as market value, growth rate, segmentation, geographical coverage, and major players, the market reports curated by the Data Bridge Market Research also include depth expert analysis, patient epidemiology, pipeline analysis, pricing analysis, and regulatory framework.

According to the Centers for Disease Control and Prevention (CDC), approximately 3 million (1.3%) U.S. adults have IBD (Crohn's disease or ulcerative colitis). The rising prevalence of inflammatory bowel disease at the global level is expected to fuel the growth of the market. An ostomy procedure alters bodily waste, such as urine or stool, and exits the body. It can protect the abdominal cavity, allowing damaged or inflamed digestive system parts to heal. The waste from the body passes through the abdomen and collects in a pouch that fits outside the body. An ostomy is a surgical procedure in which a surgeon makes an incision in the abdomen and connects a portion of the intestine to the abdominal wall, allowing stool to exit the body through

the abdomen rather than the rectum.
