Interview

“The process is simple. I realized that I was made to be a musician, and my instincts led me to investigate different types of music through involvement with projects that are in the entertainment and commercial world. Tallika is near and dear to me. I've spent hours crafting the atmosphere of every scene by incorporating soundtracks and songs. Collaboration with various singers playing with different singers enabled me to capture the true flavor of every genre. I am thrilled to announce that I wrote tracks composed in Hindi, English, Gujarati, and Punjabi for one feature film that is thrilling to see on a huge screen.

The commercially successful music must stem from the source of each note. My favorite track from this album was the “rap track performed by me along with Mitz a.k.a. Mitali Jani” – Maharaja Music. The songs in Tallika, the film’s feature Tallika include songs written in Hindi, Gujarati, English, and Punjabi. It includes a variety of genres, including the horror genre, Gujarati folk, Indian classical, reggaeton, EDM, pop as well as unplugged songs. The songs that are part of Tallika can be performed by Maharaja as well as other artists. The songs are available through various music stores, including Spotify, Wink Music, Amazon Prime, Deezer, Google Play, Apple Music, iTunes, Shazam, Gaana, Hungama Music, and many more, all under the label “Tallika.
