

# Aesthetic Devices Market to Grow at an Excellent CAGR of 11.1% by 2029

*Aesthetic Devices Market will grow at a CAGR of 11.1% during the forecast period of 2022 to 2029.*

NEW YORK, UNITED STATES, December 9, 2022 /EINPresswire.com/ -- Data Bridge Market research has a newly released expansive study titled "[Global Aesthetic Devices Market](#)" which guarantees you will remain better informed than your competition. This study provides a broader perspective of the marketplace with its

comprehensive market insights and analysis which eases survival and succeeding in the market. A complete overview of the industry has been presented via this Aesthetic Devices report which considers various aspects of product definition, market segmentation, and the existing retailer landscape. This market research report is produced by using integrated advancements and the latest technology to attain the most excellent results. It becomes easy to create sustainable and profitable business strategies by using helpful and actionable market insights covered in this Aesthetic Devices report. This market research report contains various parameters of this industry. These parameters range from industry outlook, currency, and pricing, value chain analysis, market overview, premium insights, and key insights to the company profile of the key market players.

Aesthetic Devices market research report appreciably aids marketing strategy as it provides key insights and information to the business. It makes available a deeper understanding on customer and competitors. This industry report helps to know who is buying product or service, who is not buying product or service, what motivates them, or whether they are loyal to certain brand and all these ultimately leads to increased sales over time. Similarly, it provides information about the wider market environment that helps identify new opportunities for the business. As the market changes, it's important to continue to research and understand ways to improve on the offering based on the changing consumer preferences or market dynamics where Aesthetic Devices report is imperative.

Global aesthetic devices market is supportive and aims to treat impairment associated with individual aesthetic appearances. Data Bridge Market Research analyses that global aesthetic devices market will grow at a CAGR of 11.1% during the forecast period of 2022 to 2029.

Market Overview:

Aesthetic procedures are used for various conditions such as acne, acne scars, wrinkle, dark spots, mole spots, and many other issues. These products can enhance the beauty of the face via reducing facial tanning, discoloration, acne among others. Various facial aesthetic products include dermal fillers, botulinum toxin, microdermabrasion, and chemical peels among others. Moreover, these implants are used to enhance the different parts of the body. Implants include breast implants and facial implants, among others. They are generally made from skin, bone, tissues, metal, plastic, ceramic, and other materials.

Global aesthetic devices market is driven by the factors such as, rising geriatric population, increase in the prevalence minimally invasive procedures and growing technological advancements in aesthetic devices which enhance its demand as well as increasing investment in research and development leads to the market growth. Currently, healthcare expenditure has increased across developed and emerging countries that is expected to create a competitive advantage for manufacturers to develop new and innovative aesthetic devices.

Increasing use of minimally invasive procedures has been shifted as compared to traditional methods for aesthetic and cosmetics surgeries techniques including laser and other energy-based devices. For the use of surgical or non-surgical procedures, specially-designed instruments have been developed for minimally used procedures. These anti-aging devices help in reducing the visual effects of skin aging by revitalizing and tightening the skin, which gives a younger look. Minimally-invasive energy-based treatments for skin tightening, wrinkle reduction, face contouring, and skin rejuvenation have a high demand in the world. However, the high cost associated with the aesthetic surgery procedure and side effects associated with the aesthetic surgery devices are expected to hamper the growth for aesthetic devices market.

Global [aesthetic devices market report](#) provides details of market share, new developments, and product pipeline analysis, impact of domestic and localized market players, analyses opportunities in terms of emerging revenue pockets, changes in market regulations, product approvals, strategic decisions, product launches, geographic expansions, and technological innovations in the market. To understand the analysis and the market scenario contact us for an analyst brief, our team will help you create a revenue impact solution to achieve your desired goal. The scalability and business expansion of the retail units in the developing countries of various region and partnership with suppliers for safe distribution of machine and drugs

products are the major drivers which propelled the demand of the market in the forecast period.

Some of the major players operating in the Aesthetic Devices Market are:

Allergan (A Subsidiary of AbbVie Inc.), Mentor Worldwide LLC (A SUBSIDIARY OF JOHNSON & JOHNSON SERVICES, INC), Shanghai Fosun Pharmaceutical(Group)Co., Ltd, Bausch Health Companies Inc, Candela Medical, Cutera, Cynosure (A Subsidiary Of Hologic Inc.), LUTRONIC INC, BTL, Medytox, SharpLight Technologies Inc, Aerolase Corp, Suneva Medical, AirXpanders, Inc., Lumenis Be Ltd., Venus Concept, Sientra, Inc, Merz North America, Inc., Quanta System, and GC Aesthetics, among others.

## Recent Development

In January 2021, Candela, a leading global medical aesthetic device company has announced the availability of the Frax Pro system which is a FDA-cleared, non-ablative fractional device skin resurfacing with both Frax 1550 and the novel Frax 1940 applicators. This helped the company to expand the product portfolio of aesthetics in the market.

## Global [Aesthetic Devices Market Segmentation](#)

Global aesthetic device market is categorized into four notable segments which are based on products, raw material, end user, and distribution channel. The growth among segments helps you analyses niche pockets of growth and strategies to approach the market and determine your core application areas and the difference in your target markets.

### Products

Facial Aesthetic Products

Body Contouring Devices

Cosmetic Implants

Hair Removal Devices

Skin Aesthetic Devices

Others

On the basis of products, the global aesthetic devices market is segmented into facial aesthetic products, body contouring devices, cosmetic implants, hair removal devices, skin aesthetic devices, and others.

### Raw Material

Polymers  
Metals  
Biomaterials

On the basis of raw material, the global aesthetic devices market is segmented into polymers, metals and biomaterials.

End User

Hospitals  
Dermatology Clinics  
Clinics  
Academic And Private Research Institutes  
Others

On the basis of end user, the global aesthetic devices market is segmented into hospitals, dermatology clinics, clinics, academics and private research institutes and others.

Distribution Channel

Direct Tender  
Retail Sales

Aesthetic Devices Market Regional Analysis/Insights

The Aesthetic Devices Market is analyzed and market size insights and trends are provided by country, product and distribution channel as referenced above.

The countries covered in the Aesthetic Devices Market report are U.S., Canada and Mexico in North America, Germany, France, U.K., Netherlands, Switzerland, Belgium, Russia, Italy, Spain, Turkey, Rest of Europe in Europe, China, Japan, India, South Korea, Singapore, Malaysia, Australia, Thailand, Indonesia, Philippines, Rest of Asia-Pacific (APAC) in the Asia-Pacific (APAC), Saudi Arabia, U.A.E, South Africa, Egypt, Israel, Rest of Middle East and Africa (MEA) as a part of Middle East and Africa (MEA), Brazil, Argentina and Rest of South America as part of South America. North America dominates the Aesthetic Devices Market due to the rise in the product visibility across multi-retail outlets. Furthermore, the presence of large multinational companies concentrating their attention on providing superior quality hair care products including styling products, conditioner, color, and shampoo will further boost the growth of the Aesthetic Devices Market in the region during the forecast period.

Asia-Pacific is projected to observe significant amount of growth in the Aesthetic Devices Market due to the rise in the internet penetration and push of e-commerce companies. Moreover, the growing usage of premium hair care products is further anticipated to propel the growth of the

Aesthetic Devices Market in the region in the coming years.
