

# REVO Powertrains Launches Equity Crowdfunding Campaign

*Recent California Air Resources Board Certification Sets Stage for Funding Round.*

ALAMEDA, CALIFORNIA, UNITED STATES, December 13, 2022

[/EINPresswire.com/](https://www.einpresswire.com/) -- [REVO](https://www.einpresswire.com/)

[Powertrains](https://www.einpresswire.com/), a supplier of electric vehicle (EV) powertrains for medium- and heavy-duty vehicles, today announced the launch of its Regulation [Crowdfunding capital raise](https://www.einpresswire.com/) on the StartEngine platform. Proceeds from the crowdfunding campaign will be used to commercialize its powertrain for medium- and heavy-duty EVs. The link to the offering page can be found here: <https://www.startengine.com/revopowertrains>.

REVO Powertrains Facility in Alameda

“

Our recent ZEP Cert from the California Air Resources Board paves the way for the roll-out of our RePower process to dealers and fleet customers”

*Alan Dowdell, Chief  
Commercial Officer of REVO  
Powertrains*

While medium- and heavy-duty trucks make up just 4% of the total vehicle population today, they create 25% of the pollution. REVO’s RePower platform converts diesel/gas medium- and heavy-duty trucks and buses into the cleanest, safest, and most efficient electric vehicles on the road. The company’s Powertrain-in-a-Crate™ drops right into existing chassis, similar to the current process of replacing diesel engines and transmissions.

REVO recently received Zero-Emission Powertrain Certification (“ZEP Cert”) from the California Air Resources Board (CARB) for its zero-emission battery electric

powertrain.

“With REVO’s patented powertrain technology, commercial fleet operators will be able to convert existing diesel vehicles to zero-emission battery electric vehicles for a fraction of the cost of a

new vehicle,” notes Alan Dowdell, Chief Commercial Officer of REVO Powertrains. “Our recent ZEP Cert from the California Air Resources Board paves the way for the roll-out of our RePower process to dealers and fleet customers.”

### [About REVO Powertrains](#)

REVO designs and manufactures the world’s cleanest and most efficient electric vehicle (EV) powertrain for medium- and heavy-duty vehicles. The company is revolutionizing the environmental impact and economics of heavy transportation by delivering world class EV technology where it’s needed most. REVO is headquartered and manufactures in Alameda, California.
