DICE Dental offers dental implants, dentures, extractions, and crowns in Southampton, PA

Dental crowns are a tooth-shaped cover that strengthens, rebuilds, and improves the appearance of a broken or weakened tooth. Crowns cover teeth that have root canals or large fillings, preventing further damage in the future.

“

Crowns are long-lasting restorations...If they are well cared for, they can last up to 15 years.”

Dr. Katie Alger

Crowns at DICE Dental are made using CEREC technology. This 3D digital imagery allows dentists to craft precise restorations that match the shape, size, and color of a patient's existing teeth.

“Crowns are long-lasting restorations,” says Dr. Katie Alger, [dentist in Southampton](#). “If they are well cared for, they can last up to 15 years.”

Taking digital impressions, crafting, and placing the crown typically takes two visits. Dr. Alger and her team will work with patients to ensure they are happy with the look and feel of their restoration.
