

PETDINE ANNOUNCES OPENING OF NEW COLORADO FACILITY

Facility Increases Soft Chew and Powder Capacity to Meet Growing Demand

FORT COLLINS, COLORADO, UNITED STATES, December 13, 2022 /EINPresswire.com/ -- PetDine, one of North America's most prominent pet supplement and treat manufacturers, officially opened its new cold extrusion manufacturing plant in Windsor, Colorado. The 105,000-square-foot facility triples PetDine's soft chew capacity while supporting expanded liquid line capabilities and a standalone powder line to support the growing \$1.9 billion global pet supplement market. [\(1\)](#)

"PetDine's capacity expansion creates significant opportunities," said Elizabeth Barth, Vice President, PetDine. "Our top priority is supporting the success of our clients by providing the most innovative and highest-quality products for pets."

PetDine's capabilities now include over 375,000 square feet of manufacturing space at a recently expanded state-of-the-art [production facility in Harvard, IL](#); facilities in Fort Collins, CO; and the [new facility in Windsor, CO](#).

Through its consultative approach, PetDine offers a complete range of highly customized pet treat and supplement products to more than 15 countries. Solutions include baked treats, semi-moist treats, long goods, blends, soft chews, liquids, and powders – many of which meet the industry demand for clean labels.

In September 2021, ADM acquired a 75% ownership stake in PetDine. "Our continued investment in new production facilities and state-of-the-art manufacturing equipment and technologies are intended to help support our customers, while improving the lives of pets," said
