System Integration Market Size, Share, Trends, Industry Report, Key Player, Major Segments, and Forecast

The key highlights of the report include:

Market Overview (2017-2027)

- Forecast CAGR (2022-2027): 4.9%

The increasing adoption of system integration solutions by medium and large enterprises to implement, plan, coordinate, schedule, and improve IT solutions while boosting productivity is

driving the market growth. The rapid digitalisation in industries such as the BFSI, and energy and utilities, among others, are also propelling the demand for system integrators. Moreover, the increasing investments toward automating and streamlining businesses are furthering the market growth.

In terms of regions, North America accounts for a significant share in the system integration market owing to the advanced IT infrastructure in the United States and Canada. The market in the region is anticipated to be driven by the increasing adoption of smart devices such as laptops and tablets, among others.

### System Integration Market Segmentation

A system integration is a system that is formed by linking together various IT systems to function as one. In system integration, subsystems work together as a single unit in order to boost productivity and save time during operations. The role of a system integrator is to design and implement integration solutions.

On the basis of service, the market can be segmented into:

- Infrastructure Integration
  - Building Management System
  - Integrated Communication
  - Data Centre Infrastructure Management (DCIM)
  - Network Integration
  - Others
- Application Integration
  - Application Lifecycle Management (ALM)
  - Data Integration
  - Integrated Security Software
  - Integrated Social Software
  - Others
- Consulting

Based on end use, the system integration market has been classified into:

- IT and Telecom
- BFSI
- Energy and Utilities
- Manufacturing
- Healthcare

Retail  
Others

The regional markets for system integration include:

North America  
Asia Pacific  
Europe  
Middle East and Africa  
Latin America

### System Integration Market Trends

The key trends in the system integration market include the increasing dependence on software-defined computing and networking by various businesses. Technological advancements in the e-learning sector and the emergence of various educational platforms are further accelerating the demand for system integration.

The rising funding of start-ups of system integration across emerging economies is likely to provide impetus to the market. Furthermore, the market is anticipated to be aided by the rapid development of data centres, along with the increasing penetration of artificial intelligence in the IT, telecom, and manufacturing sectors.

### Key Market Players

The major players in the system integration market are :

Wipro Limited  
Cognizant Technology Solutions Corporation  
Deloitte Touche Tohmatsu Limited  
HCL Technologies Limited  
IBM Corporation  
Capgemini SE  
Cisco Systems, Inc.  
Accenture PLC  
others.

The report covers the market shares, capacities, plant turnarounds, expansions, investments and mergers and acquisitions, among other latest developments of these market players.
