

Lectron Joins Raiven Marketplace

Lectron's mission is to make EV charging fast, easy, & affordable.

IRVINE, CALIFORNIA, US, December 14, 2022 /EINPresswire.com/ -- Raiven, a leader in purchasing, procurement, and supply chain management, has

announced the addition of Lectron to their growing list of suppliers and manufacturers in their [purchasing platform](#). Lectron offers an innovative, efficient, and affordable lineup of level 1 and level 2 electric vehicle (EV) charging stations and accessories. The addition of Lectron to Raiven's Marketplace will bring a new array of dependable EV charging solutions to all of Raiven's members.

LECTRON'S MISSION: FAST, RELIABLE AND AFFORDABLE

With a wide variety of advanced, yet affordable EV charging stations under their label, Lectron is on a mission to make at-home EV charging solutions accessible to all drivers without compromising on power, design, or efficiency. Their sleek, easy-to-install designs are compatible with any J1772 electric vehicle and contain all the features one would expect from a high-end EV charging station.

Lectron's level 2 "V-Box" chargers don a vibrant LED display where users can view, in real time, the station's current voltage, charging time, temperature, and grounding indicator. Their designs come in both a 40 and a 48-amp models, each with multiple different output amperage settings to choose from as well.

And Lectron carries a wide selection of EV charging accessories, adapters, and NEMA plugs. Including Tesla chargers and adapters compatible with J1772 chargers. With Lectron's premium charging stations, chargers, and adapters, you have all the power you need to drive on confidently, without range anxiety or compatibility issues.

LECTRON CHARGERS ARE BUILT TO LAST

In addition to offering the standard power distribution capabilities of a level 2 charger, Lectron's devices are impressively durable. Their V-Box models have an IP55 weatherproof rating and are constructed with all climates in mind. They also feature thorough monitoring systems to protect

against circuit board overheating, leakages, overheating, current and voltage overloading, and are even lightening proof.

All Lectron models include built-in shock protection to allow for charging in wet conditions and are constructed from high-grade materials, making them some of the safest and most reliable chargers on the market.

RAIVEN SUPPLIERS & MANUFACTURES

Lectron is the latest in a growing number of manufacturers & supplier to join the Raiven Marketplace, joining the ranks of Grainger, Graybar, Ferguson, Carrier, Office Depot & more. The Raiven stable of suppliers & manufacturers offer the products, parts, equipment, and supplies needed most by contractors, building owners, and facility managers. To join the Marketplace, each supplier must offer quality products and commit to real-time product availability, transparent pricing, and discounts of 7-25% or more.

"We are happy to welcome Lectron to the Raiven Marketplace," says Raiven CEO Brett Knox, "Their chargers are an exciting addition to the growing lineup of fast and reliable EV chargers offered to the electrical contractors and installers in our network. This is an example of Raiven's mission to provide our contractors with immediate access to all of the electrification technologies needed to achieve a carbon-free future and achieve America's electrification goals."

ABOUT RAIVEN

Raiven is a leading purchasing, procurement, and supply chain management platform enabling contractors and facility managers to digitally transform their procurement process and obtain significant discounts on their most commonly purchased items. Raiven's cloud-based procurement platform helps businesses purchase smarter and more efficiently through patent-pending AI algorithms that find in-stock products at the lowest prices.
