Logistics, Inc. (NGL) a leading provider of [transportation management software](#), managed freight services, and supply chain consulting, has announced its latest release of Dynamics TMS® Transportation Management Solution Version 8.5 for Microsoft Dynamics Finance and Operations ERP (F&O) is now certified and available in Microsoft's AppSource.

We are very pleased to enhance our partnership and investment with Microsoft providing affordable Tier-1 Transportation Management Solutions for our mutual ERP customers as they scale their business."

Aristides (Ari) P. Smith, CEO

Dynamics TMS® for Microsoft Dynamics 365 F&O is a complete enterprise transportation management planning and execution suite that enables transportation professionals to make effective and efficient business decisions. The application is intended for shipper companies that utilize Microsoft Dynamics 365 Finance & Operations and need greater than the out-of-the-box functionality to manage their growing transportation freight spend needs.

The company detailed that this F&O version builds on the success of their Business Central offering with substantial

functional enhancements. The software can be quickly deployed, whether you choose our On-Premise, Hosted, Private or Public Cloud model to manage a single company or multiple divisions and can generate an ROI within months.
