

# Miss New York Reveals her Skincare Secrets with the World

*Beauty Queen/Model Taryn Delanie Smith Finds Total Complexion Confidence at Aion Aesthetics, Thanks to Award-Winning Facial Architect Akis Ntonos' Use of VI Peel*

NEW YORK , NEW YORK , UNITED STATES OF AMERICA , December 13, 2022 /EINPresswire.com/ -- New York's [Aion Aesthetics](https://www.aionaesthetics.com/) is the only Medical Aesthetic Boutique Clinic trusted by Miss New York Taryn Delanie Smith. Co-founder and facial architect Akis Ntonos - recently named "Top Aesthetic Injector 2022" by Aesthetic Everything - developed a personalized regimen that has become a secret weapon for the talented model and beauty contestant, who is currently preparing to compete for this month's Miss America crown.

"Akis has absolutely transformed my skin," shares Smith. "He is the reason why I feel more confident than ever."

"It is a privilege to work with Miss Smith, and we wish her luck at her upcoming competition," says Ntonos. "Clients like her are the reason I love what I do - it is an honor to support the self-confidence that comes from looking and feeling your very best."

Prior to her bid for Miss New York, Smith struggled to manage hyperpigmentation and acne that kept her from feeling powerfully confident. With an experienced hand, Ntonos carefully assessed aspects of her lifestyle, wellness goals, and more, creating a focused approach that not only gave her the confidence to win the competition but also the attention of the renowned model management group MMG.

Ntonos' treatment includes the VI Peel Purify with Precision Plus by [Vitality Institute](#), the leading professional treatment and clinical skincare brand. The VI Peel Purify with Precision Plus is a comprehensive, painless chemical peel specifically targeting acne and acne-related scarring. This advanced acne solution works synergistically to combat active acne symptoms while repairing dark areas on the skin. The VI Peel Purify with Precision Plus helps to fade textural scarring and Post Inflammatory Hyperpigmentation (PIH) caused by acne breakouts. The painless procedure is safe for all skin types and tones, and is ideal for treating:

Excessive oil and congested pores  
Acne with hyperpigmentation  
Acne scarring  
Adult acne

Clients often see results in as little as seven days, with further improvement from routine professional treatments and effective at-home skincare.
