"Through the Eyes of God and Humanity" Movie Documentary at the Emagine Theater in Royal Oak, Michigan

Wow, an Inspirational film that shares unique diversity in culture, ethnicities, and wellness of light mass versus dark matter shows truly from the start of the cast's intentions in their emotions to the breakdown of questions being asked by Jones. It's remarkable to see each one's awareness with emotional answers connecting to leaving them in a more positive peaceful wholesome mood of exchange with peace at the end of the interviews. We enjoyed seeing the FIRST-EVER [documentary film](#) that was done over "Zoom" known as a Virtual Platform of technology used during a traumatic time in a worldwide crisis. The information is better than the technical quality but woah watching the silence in the movie premiere at the end of the film had everyone stunned as they didn't rush out to leave but stayed intrigued wanting to learn more from the credits.

Tianna DeNA Jones has proven that the generation of the 90s has a way of adapting to their situations to use technology to express themselves from social media. We can see clearly that Jones expresses herself by giving her platforms as a tool to better society which is known to be in a critical condition needing more healing and mental health issues for prevention.
