Eva was one of only 90 competitors across six categories to have won a spot in the Global Finals.

Industry professionals from around the world, including renowned actors, film directors and heads of international acting schools, weighed in to select which performers went through to the Finals. Competing on the world's stage like this is a dream come true and I was super excited to share my work!"

The World Monologue Games began in 2020 to provide space for artists around the world to showcase their talents, despite the then-ongoing COVID-19 restrictions. The World Monologue Games continues to serve as a space for actors to perform and interact with their communities.

Born and raised in Dubai, UAE, Eva Petersson is a multi-

award-winning actress, singer, and dancer. Eva fell in love with performing arts at the tender age

of eight and has never looked back. She broke into Hollywood with her role as Penelope Grayson in Go! Iguanas and received international recognition through the title role in Where is Lucy? Eva continues to improve her craft with professional training from award-winning coaches in acting, singing, and dancing.

Event founder Pete Malicki is thrilled to see World Monologue Games getting bigger and better each year. "What I love most about the Games is seeing amazing performers from all around the world come together in a single event," he says. "More than half the world's countries have participated, although I won't feel entirely satisfied until we get our first submission from Antarctica!"

"The monologue I'm performing is about a young dreamer, a student who was anxiously waiting for the results of their scholarship to a prestigious school," said Eva. She continued: "Hopeful yet anxious, the character went from lamenting about how their dreams depended heavily on getting the scholarship, to celebrating their success. Competing on the world's stage like this is a dream come true and I was super excited to share my work!" ENDS
