Tuberous sclerosis also called as tuberous sclerosis complex (TSC) refer to the genetic disorder which cause non- malignant tumors to form in vital organs primarily the brain, heart, kidneys, eyes and skin. It mainly affects the central nervous system (CNS) causes epilepsy, skin abnormalities and autism spectrum disorder. The ailment is caused by mutation in two genes- TSC1 and TSC2.

The increase in the rate of tuberous sclerosis diseases among population across the globe acts as one of the major factors driving the growth of the tuberous sclerosis drug market. The rise in investment in the research and development activities to enhance the overall course of diagnosis and treatment of tuberous sclerosis and the advancements in the treatment, therapies and novel treatment accelerate the tuberous sclerosis drug market growth. The robust pipelines for development of newer treatment and public and private initiatives to enhance the treatments further influence the tuberous sclerosis drug market. Additionally, public awareness about diseases and treatment options, improving healthcare infrastructure, increasing investment and surge in healthcare expenditure positively affect the tuberous sclerosis drug market. Furthermore, research and development extend profitable opportunities to the tuberous sclerosis drug market players in the forecast period of 2021 to 2028.

On the other hand, patent expiry of the patented drugs and high cost associated with the treatment are expected to obstruct the tuberous sclerosis drug market growth. Inadequate awareness about disease and lack of skilled professionals are projected to challenge the tuberous sclerosis drug market in the forecast period of 2021-2028.

This tuberous sclerosis drug market report provides details of new recent developments, trade regulations, import export analysis, production analysis, value chain optimization, market share, impact of domestic and localized market players, analyses opportunities in terms of emerging revenue pockets, changes in market regulations, strategic market growth analysis, market size, category market growths, application niches and dominance, product approvals, product launches, geographic expansions, technological innovations in the market.
