[Autonomous Marine Vehicles Market](#)  
Size Analysis:

The market for autonomous marine vehicles is comprised of autonomous marine vehicle sales. Autonomous marine vehicles are robots that navigate the water's surface or depths without a human operator.

The two primary types of autonomous marine vehicles are surface and subsurface vehicles. A surface vehicle is a land-based automobile, as opposed to a subway car or other elevated vehicle. The various applications included are military & defense, archaeology, exploration, oil & gas, environmental protection and monitoring, search & rescue, and oceanography. Imaging, navigation, communication, collision avoidance, and propulsion are the technologies involved.

The autonomous marine vehicles market is expected to grow from USD \*\* billion in 2020 to USD \*\* billion by 2026, at a CAGR of 15.9%. The market is driven by the increasing demand for maritime transportation, particularly in emerging economies.

The autonomous marine vehicle market is segmented on the basis of type, application, technology and region. The type-based segment includes land-based and waterborne unmanned aerial vehicles (UAVs). The land-based segment dominates the market owing to its

higher demand for civil and commercial applications. The waterborne segment is expected to grow at a higher rate due to its potential for coastal surveillance and military applications.

The regional analysis highlights that Asia Pacific constitutes the largest market in terms of value, followed by North America and Europe. Asia Pacific is forecast to account for more than half of the total market volume in 2028. This growth can be attributed to the rising investments related to maritime transportation, growing awareness about maritime security issues, and increasing investment in innovative technologies such as UAVs and artificial intelligence (AI) enabled navigation systems (ANS).

Key Players: Saab AB (Sweden), Kongsberg Gruppen ASA (Norway), Lockheed Martin Corporation (U.S.), Airbus SE (France), and General Dynamics Corporation (U.S.)

#### COVID-19 Scenario:

The outbreak of the COVID-19 pandemic has had a significant impact on economic activity and trade around the world. The market for Autonomous Marine Vehicles is no exception.

In the short term, the market is expected to experience a slowdown in growth as a result of the pandemic. But in the long run, the market is expected to grow at the same rate it did before the pandemic.

#### Report Coverage:

This report covers the Autonomous Marine Vehicles market landscape and its growth prospects in the coming years. The report includes an in-depth competitive analysis of the key players in this market, along with their company profiles, product offerings, and recent developments.

#### Segmentations covered into report:

##### By Type

- Surface Vehicle
- Underwater Vehicle

##### By Application

- Military And Defense
- Archeological
- Exploration
- Oil And Gas

- Environmental Protection And Monitoring
- Search And Salvage Operations
- Oceanography

#### By Technology

- Imaging
- Navigation
- Communication
- Collision Avoidance
- Propulsion

#### Key Questions Answered In This Report:

- Covid 19 impact analysis on global Autonomous Marine Vehicles Market industry.
- What are the current market trends and dynamics in the Autonomous Marine Vehicles Market and valuable opportunities for emerging players?
- What is driving Autonomous Marine Vehicles Market?
- What are the key challenges to market growth?
- Which segment accounts for the fastest CAGR during the forecast period?
- Which product type segment holds a larger market share and why?
- Are low and middle-income economies investing in the Autonomous Marine Vehicles Market?
- Key growth pockets on the basis of regions, types, applications, and end-users
- What is the market trend and dynamics in emerging markets such as Asia pacific, Latin America, and Middle East & Africa?

#### Unique data points of this report:

- Statistics on Autonomous Marine Vehicles Market and spending worldwide
- Recent trends across different regions in terms of adoption of Autonomous Marine Vehicles Market across industries
- Notable developments going on in the industry
- Attractive investment proposition for segments as well as geography
- Comparative scenario for all the segments for years 2018 (actual) and 2028 (forecast)
