[Key Trends In The Fans and Blowers Market](#)

Technological advancements are shaping the fans and blower market. Companies manufacturing fans and blowers have introduced technologies such as liquid cooling technology for better performance. For instance, in September 2020, Boyd Corporation, a US-based

company, designed a low-profile cooling ultra-thin and lightweight blower using liquid cooling technology. These are as thin as 3mm which functions well in high pressure and provides cooling while maintaining durability and are designed in thin and ultra-thin profiles, which are ideal for the smaller, more powerful devices.

Overview Of The Fans and Blowers Market

The fans and blowers market consists of sales of fans and blowers by entities (organizations, sole traders, and partnerships) that are used to overcome the airflow resistance caused by components such as ducts and dampers. Fans and blowers are machines that provide ventilation, the flow of air (or gas) required for cooling, exhausting, and conveying, and are also used in industrial process requirements.
