The Business Research Company

As per The Business Research Company's "Top Robotics Global Market Report 2022", the top robotics market is predicted to reach a value of \$69.41 billion in 2021 at a compound annual growth rate (CAGR) of 16.4%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The [top robotics market size](#) is expected to reach \$154.52 billion in 2025 at a CAGR of 22.1%. The increasing use of robots in the logistics sector is projected to fuel the growth of the top robotics market over the coming years.

Key Trends In The Top Robotics Market

The growing technological advancements are shaping the top robotics market. Technological advancements have authorized manufacturers to use lightweight robots that can manage numerous tasks and improve productivity. Artificial intelligence, machine learning, and other

emerging technologies have been put into robots to replicate human intelligence and facilitate some of the jobs that humans perform. For instance, in January 2020, Omron, a Japan-based electronics company launched the Omron i4 which has an inbuilt AI system for predictive maintenance. This is a next-generation industrial robot that can identify and communicate when it's time for repairs and maintenance.

Overview Of The Top Robotics Market

The top robotics market consists of sales of top robots by entities (organizations, sole traders, and partnerships) that manufacture industrial and service robotics which are digitized, highly programmable, and capable of moving across in more than three dimensions. Top Robotics is the study of robotics, which are complex machines that have been integrated with numerous other disciplines of technology and are used to replace humans in repetitive and dangerous tasks.

Top Robotics Global Market Report 2022 from TBRC covers the following information:

Market Size Data

Forecast period: Historical and Future

By region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

By countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Market Segmentation

By Type: Top Industrial Robotics, Top Services Robotics

By Application: Handling, Welding And Soldering, Assembling And Disassembling, Dispensing, Others

By End Use Industry: Automotive, Electrical And Electronics, Metals And Machinery, Food And Beverages, Pharmaceuticals And Cosmetics, Others

By Geography: The top robotics global market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia-Pacific holds the largest share in the market.

Major market players such as ABB Ltd, Yaskawa, FANUC, KUKA, Kawasaki Heavy Industries, Nachi-Fujikoshi, Honda Motor, Adept Technology, Mitsubishi Electric, Northrop Grumman, Denso, Epson, Universal Robots, Omron Adept, Stäubli, Comau

Trends, Opportunities, Strategies And So Much More.

Top Robotics Global Market Report 2022 is one of The Business Research Company's

comprehensive reports that provides in-depth [top robotics market research](#). The market report analyzes top robotics market size, top robotics global market growth drivers, top robotics market segments, top robotics global market major players, top robotics global market growth across geographies, and top robotics global market competitors' revenues and market positioning. The top robotics market report enables you to gain insights on opportunities and strategies, as well as identify countries and segments with the highest growth potential.
