

Hyperscale Data Center Market to Witness USD 398.57 Billion by 2029, Size, Share, Recent Trends and Revenue Analysis

Data Bridge Market Research Published Latest Hyperscale Data Center Market Study by in-depth analysis of the current scenario, the size, Share, demand & growth,

DALLAS, UNITED STATES, December 14, 2022 /EINPresswire.com/ -- This

[Hyperscale Data Center market](#) research report includes important data and information about the market, emerging trends, product usage, motivating factors for

customers and competitors, restraints, brand positioning, and customer behaviour, all of which are of the utmost importance when it comes to achieving success in a competitive marketplace like this one. As a result, this research covers a wide range of topics related to the [Hyperscale Data Center](#) business. The CAGR value variation that is expected to occur over the course of the forecast period is presented in this market study. In the process of doing the market research study that goes into the creation of this particular Hyperscale Data Center market report, the tried-and-true, industry-standard, and fool proof method known as SWOT analysis was utilized.

During the process of putting together this Hyperscale Data Center market research study, the goals of the marketing research have been kept in mind. Utilizing this market research study will be the most efficient and effective technique for you to gain insightful knowledge about the market. A market segmentation research is performed with regard to the markets that are covered, the geographic scope of the study, the years that are considered for the study, the pricing, and the currency. This report presents the findings of an in-depth market study that was carried out specifically for the purpose of shedding light on the opportunities, challenges, market structures, and driving forces that are relevant to your company as well as the extent of the competitive landscape. In order to achieve an acute awareness of emerging industry movements ahead of the competition, the Hyperscale Data Center report is of great assistance.

[Global hyperscale data center market](#) was valued at USD 65.64 billion in 2021 and is expected to

reach USD 398.57 billion by 2029, registering a CAGR of 25.29% during the forecast period of 2022-2029. In addition to the market insights such as market value, growth rate, market segments, geographical coverage, market players, and market scenario, the market report curated by the Data Bridge Market Research team includes in-depth expert analysis, import/export analysis, pricing analysis, production consumption analysis, and pestle analysis.

How Data Bridge Market Research Assists in Making Strategic Moves for Hyperscale Data Center Market Players?

The data provided in the Hyperscale Data Center market report offers comprehensive analysis of important industry trends. Industry players can use this data to strategize their potential business moves and gain remarkable revenues in the upcoming period.

The report covers the price trend analysis and value chain analysis along with analysis of diverse offering by market players. The main motive of this report is to assist enterprises to make data-driven decisions and strategize their business moves.

Major Companies Operating at both regional and global levels:

Intel Corporation (U.S.)
Cisco Systems Inc. (U.S.)
Hewlett Packard Enterprise Development LP (U.S.)
Telefonaktiebolaget LM Ericsson (Sweden)
Marvell (U.S.)
IBM (U.S.)
NVIDIA Corporation (U.S.)
Amazon Web Services, Inc. (U.S.)
Equinix, Inc. (U.S.)
Apple Inc. (U.S.)
NTT Communications Corporation (Japan)
Microsoft (U.S.)
Dell (U.S.)
VIAVI Solutions Inc. (U.S.)
QTS Realty Trust, Inc. (U.S.)
Inspur (China)
Western Digital Corporation (U.S.)
Schneider Electric (France)
Broadcom (U.S.)

Key Questions Answered

What are the key global market and the regional market share?

What are the revenue-generating key market segments?

What are the key factors driving and challenging this market's growth?

Who are the key market vendors and their growth strategies?

What are the latest trends influencing the growth of this market?

What are the variables influencing the market growth in the primary regions?

What are the factors influencing the growth of the parent market?

Industry Drivers:

Growing number of data centers

Due to the growing need for computing and storage to support high-end applications, data centres have recently evolved to be incredibly powerful. The number of business-critical apps is increasing, which has led to a rise in data centre complexity. The role of hyperscale data centers has proven to significantly and positively impact the data center handling and will carve the way for market growth.

Increased demand for higher productivity

Rising volume of organizational and consumer data will widen the scope of growth to a great extent. The rising need for high application performance has directly impacted the expansion of the hyperscale data centre market. The market for hyperscale data centres is also prospering due to the growing need to reduce Capex and Opex. Spending on data centre technology is also rising quickly, which is helping the market expand.

Market Segmentation of Hyperscale Data Center Market:

Infrastructure

IT Infrastructure

Server

Storage

Network

Electrical Infrastructure

UPS Systems

Generators

Transfer Switches & Switchgears

- PDU's
- Other Electrical Infrastructure
- Mechanical Infrastructure
- Cooling Systems
- CRAC & CRAH Units
- Chiller Units
- Cooling Towers, Condensers & Dry Coolers
- Economizers & Evaporative Coolers
- Other Cooling Units
- Racks
- Other Mechanical Infrastructure
- General Construction
- Core & Shell Development
- Installation & Commissioning Services
- Building & Engineering Design
- Physical Security
- DCIM/BMS

Component

- Solutions
- Server
- Storage
- Networking
- Software
- Services
- Consulting
- Installation and deployment
- Maintenance and support

Data Center Size

- Small and Medium-Sized Data Centers
- Large Data Centers

Application

- Banking, Financial Services, and Insurance
- IT and Telecom
- Research and Academics
- Government and Defense
- Retail
- Manufacturing

Healthcare
Others

End User

Cloud Providers
Colocation Providers
Enterprises

Global Hyperscale Data Center Market: Regional Analysis

North America [U.S., Canada, Mexico]

Europe [Germany, UK, France, Italy, Rest of Europe]

Asia-Pacific [China, India, Japan, South Korea, Southeast Asia, Australia, Rest of Asia Pacific]

South America [Brazil, Argentina, Rest of Latin America]

Middle East & Africa [North Africa, South Africa, Rest of Middle East and Africa]

Our support team consisting of qualified and well-informed market advisors is there to help you save money and time by providing the following services and more:

Narrow your search based on specific categories within a market
Identify an entire plethora of pertinent reports
Sift reports based on their scope and research methodology
Objectively consult with you to help you gain maximum value for your investment
Coordinate with publishers for customization requests
Work closely with your team to ensure timely delivery of reports
