

Circulating Tumor Cells (CTC) Liquid Biopsy Market is Growing With a CAGR of 25.3% During The Forecast Period 2022-2029

Circulating Tumor Cells (CTC) Liquid Biopsy Market is expected to reach USD 5,756.44 Mn by 2029 from USD 1,001.83 Mn in 2021

PUNE, MAHARASHTRA, INDIA,
December 16, 2022 /

EINPresswire.com/ -- [Circulating Tumor Cells \(CTC\) Liquid Biopsy Market](#) study by "Data Bridge Market Research" provides details about the market dynamics affecting the market, Market scope, Market segmentation and overlays shadow upon the leading market players highlighting the favorable competitive landscape and trends prevailing over the years.

Global circulating tumor cells (CTC) liquid biopsy market is expected to gain market growth in the forecast period of 2022 to 2029. Data Bridge Market Research analyses that the market is growing with a CAGR of 25.3% in the forecast period of 2022 to 2029 and is expected to reach USD 5,756.44 million by 2029 from USD 1,001.83 million in 2021. The high prevalence of chronic diseases and increasing R&D activities for its effective application is likely to be the major drivers which propel the demand of the market in the forecast period.

An exclusive Circulating Tumor Cells (CTC) Liquid Biopsy market report provides depth analysis of the market dynamics across five regions such as North America, Europe, South America, Asia-Pacific, Middle East and Africa. The segmentation of the market by type, application, and region was done based on the thorough market analysis and validation through extensive primary inputs from industry experts, key opinion leaders of companies, and stakeholders) and secondary research (global/regional associations, trade journals, technical white papers,

company's website, annual report SEC filing, and paid databases). Further, the market has been estimated by utilizing various research methodologies and internal statistical model.

Circulating Tumor Cells (CTC) Liquid Biopsy market report also provide a thorough understanding of the cutting-edge competitive analysis of the emerging market trends along with the drivers, restraints, challenges, and opportunities in the Circulating Tumor Cells (CTC) Liquid Biopsy market to offer worthwhile insights and current scenario for making right decision. The report covers the prominent players in the market with detailed SWOT analysis, financial overview, and key developments of the products/services from the past three years. Moreover, the report also offers a 360° outlook of the market through the competitive landscape of the global industry player and helps the companies to garner Circulating Tumor Cells (CTC) Liquid Biopsy market revenue by understanding the strategic growth approaches.

Competitive Landscape:

The circulating tumor cells (CTC) liquid biopsy market competitive landscape provides details by competitor. Details included are company overview, company financials, revenue generated, market potential, investment in research and development, new market initiatives, production sites and facilities, company strengths and weaknesses, product launch, product trials pipelines, product approvals, patents, product width, and breath, application dominance, technology lifeline curve. The above data points provided are only related to the company's focus related to the circulating tumor cells (CTC) liquid biopsy market.

Leading Circulating Tumor Cells (CTC) Liquid Biopsy market Players:

Eurofins Genomics (a subsidiary of Eurofins Scientific)

MDx Health

Guardant Health

IMMUCOR

Thermo Fisher Scientific, Inc.

Menarini Silicon Biosystems

QIAGEN

Exact Sciences Corporation

Myriad Genetics, Inc.

LungLife AI, Inc.

Bio-Rad Laboratories, Inc.

Illumina, Inc.

Natera Inc.,

ExoDx (a subsidiary of Bio-Techne Corporation)

Biocept, Inc.

F. Hoffman-La Roche Ltd.

FOUNDATION MEDICINE, INC.

Lucence Health, Inc.

Global Circulating Tumor Cells (CTC) Liquid Biopsy Market Scope and Market Size

Global circulating tumor cells (CTC) liquid biopsy market is categorized into three notable segments which are based on technology, application and end user. The growth among segments helps you analyze niche pockets of growth and strategies to approach the market and determine your core application areas and the difference in your target markets.

On the basis of technology, global circulating tumor cells (CTC) liquid biopsy market is segmented into CTC detection methods, CTC enrichment methods, ex vivo positive selection, molecular (RNA)-based technologies, functional in vitro cell invasion assay, xenotransplantation methods, microchips, single spiral microchannel, negative selection and immunocytochemical technologies. In 2021, CTC detection methods segment is expected to dominate the market because of increasing use of this technology in the academics and research centers for the tests of liquid biopsy.

On the basis of application, global circulating tumor cells (CTC) liquid biopsy market is segmented into cancer stem cell research, multiple chromosome abnormalities and others. In 2021, cancer stem cell research segment is expected to dominate the market because of increasing demand of early diagnosis and treatment of cancer.

On the basis of end user, global circulating tumor cells (CTC) liquid biopsy market is segmented into research and academic institutes, reference laboratories and hospitals and physician laboratories. In 2021, academic and research institutes segment is expected to dominate the market because of research and academic institutes perform an essential role to accelerate research and development in the various therapeutic area related to liquid biopsies.

Global Circulating Tumor Cells (CTC) Liquid Biopsy Market Country Level Analysis

The U.S. is dominating the global circulating tumor cells (CTC) liquid biopsy in the North American region due to rise in number of cancer patients and presence of major players in the market. Whereas, Germany is dominating the circulating tumor cells (CTC) liquid biopsy market in the European region due to presence of untapped opportunities in Germany and growing geriatric population in Germany. Additionally, China is dominating the circulating tumor cells (CTC) liquid biopsy market in the Asia Pacific region due to increased awareness regarding the early diagnosis and treatment of diseases such as cancer and increasing healthcare expenditure

which leads to improvement in diagnostic rate.

The country section of the report also provides individual market impacting factors and changes in regulation in the market domestically that impacts the current and future trends of the market. Data points such as new sales, replacement sales, country demographics, regulatory acts and import-export tariffs are some of the major pointers used to forecast the market scenario for individual countries. Also, presence and availability of global brands and their challenges faced due to large or scarce competition from local and domestic brands, impact of sales channels are considered while providing forecast analysis of the country data.

Circulating Tumor Cells (CTC) Liquid Biopsy market - Global Analysis to 2027 is an exclusive and in-depth study which provides a comprehensive view of the market includes the current trend and future amplitude of the market with respect to the products/services. The report provides an overview of the Circulating Tumor Cells (CTC) Liquid Biopsy market with the detailed segmentation by type, application, and region through in-depth traction analysis of the overall virtual reality industry. This report provides qualified research on the market to evaluate the key players by calibrating all the relevant products/services to understand the positioning of the major players in Circulating Tumor Cells (CTC) Liquid Biopsy market.

The report is a combination of qualitative and quantitative analysis of the virtual reality industry. The global market majorly considers five major regions, namely, North America, Europe, Asia-Pacific (APAC), Middle East and Africa (MEA) and South & Central America (SACM). The report also focuses on the exhaustive PEST analysis and extensive market dynamics during the forecast period.

The significant [Circulating Tumor Cells \(CTC\) Liquid Biopsy market analysis](#) gives an examination of various segments that are relied upon to observe the quickest development amid the estimate forecast frame. The report puts light on the types of customers, product-buyer insights, market changes over last few years, reactions of various geographic regions, new developments in the market, actions of other corporate players and more. All the statistics are signified in graphical and tabular format for a clear understanding on facts and figures. By accomplishing a motivation from the marketing strategies of rivals, businesses can set up inventive ideas and striking sales targets which in turn make them achieve competitive advantage over its competitors.

Reason to Buy

Save and reduce time carrying out entry-level research by identifying the growth, size, leading players and segments in the global Circulating Tumor Cells (CTC) Liquid Biopsy market.

Highlights key business priorities in order to guide the companies to reform their business strategies and establish themselves in the wide geography.

The key findings and recommendations highlight crucial progressive industry trends in the Circulating Tumor Cells (CTC) Liquid Biopsy market, thereby allowing players to develop effective long term strategies in order to garner their market revenue.

Develop/modify business expansion plans by using substantial growth offering developed and emerging markets.

Scrutinize in-depth global market trends and outlook coupled with the factors driving the market, as well as those restraining the growth at a certain extent.

Enhance the decision-making process by understanding the strategies that underpin commercial interest with respect to products, segmentation and industry verticals.

The most appropriate, exclusive, realistic, and admirable [Circulating Tumor Cells \(CTC\) Liquid Biopsy market research](#) report is delivered with devotion depending upon the business needs. With the precise base year and the historic year, estimations and calculations are performed in this report. Market share analysis and key trend analysis are the key accomplishing factors in this market report. Report helps to recognize how the market is going to perform in the forecast years by giving information about market definition, classifications, applications, and engagements. DBMR team provides Circulating Tumor Cells (CTC) Liquid Biopsy market research

document with loyalty that is promising and the way in which expected.

About Data Bridge Market Research, Private Ltd

Data Bridge Market Research Pvt Ltd is a multinational management consulting firm with offices in India and Canada. As an innovative and neoteric market analysis and advisory company with unmatched durability level and advanced approaches. We are committed to uncover the best consumer prospects and to foster useful knowledge for your company to succeed in the market.

Data Bridge Market Research is a result of sheer wisdom and practice that was conceived and built-in Pune in the year 2015. The company came into existence from the healthcare department with far fewer employees intending to cover the whole market while providing the best class analysis. Later, the company widened its departments, as well as expands their reach by opening a new office in Gurugram location in the year 2018, where a team of highly qualified personnel joins hands for the growth of the company. "Even in the tough times of COVID-19 where the Virus slowed down everything around the world, the dedicated Team of Data Bridge Market Research worked round the clock to provide quality and support to our client base, which also tells about the excellence in our sleeve."
