

Jones Software's Velocity Learning Management System™ Software Featured by Microsoft's #BuildFor2030 Campaign

Enabling more Equitable access to Education Through Technology: Why We're Part of Microsoft's #Buildfor2030 Empowering communities Initiative.

CHICAGO, IL, UNITED STATES OF AMERICA, December 22, 2022 /EINPresswire.com/ -- About the initiative

□The [Microsoft #BuildFor2030](#) Initiative accelerates innovation and collective impact together with Microsoft partners, helping to advance the United Nations Sustainable Development Goals. We're proud to support Microsoft partners enabling solutions for a more inclusive, equitable, and sustainable world.

Join Angela Heise, CVP, Worldwide Public Sector, in recognizing partners using the power of new and emerging technologies to help reimagine a more inclusive and sustainable future for communities around the world with #BuildFor2030: <https://msft.it/6042dUkbM>

Communities around the world are navigating a transformed landscape with shifting needs and priorities. In the many areas of disruption that government agencies, public sector institutions, and communities are experiencing, I believe technology can help.

The Microsoft #BuildFor2030 Initiative accelerates innovation and collective impact within our partner ecosystem, enabling partners to build and bring solutions to market in support of advancing the United Nations Sustainable Development Goals (SDGs), a set of 17 initiatives

#BuildFor2030 Global Goals 4

#BuildFor2030 • Empowering communities

focused on creating a better world for more of us by 2030. Through this initiative, we support partners to skill up, build, and grow as changemakers.

Discover how our partners at Jones Software Corp. are building more resilient communities together with Microsoft: <https://lnkd.in/g4giYs36>

#Buildfor2030 is a roadmap for Microsoft partners to develop solutions across areas aligned to five of the UN's Sustainable Development Goals. More than just an initiative, it is a challenge to partners to design transformative solutions aligned around five #Buildfor2030 themes:

- Gender equality: Technology that creates equal participation, equitable economic access, and opportunities at all levels in life and work for girls and women
- Climate action and sustainability: Solutions that help customers around the world transition to a net-zero carbon future
- Digital inclusion and accessibility: Accessible technology devices and applications with inclusive design for the more 1+billion people living with disabilities
- Enabling the nonprofit sector: Solutions that enable non-profit organizations to achieve scalable and measurable mission impact
- Empowering communities: Reimagined solutions that strengthen institutions, build a resilient infrastructure, and create fair and equitable access to health, education, and social services

Microsoft partners are building more resilient communities, together

We celebrate partner solutions that strengthen our institutions; create more equitable access to health, education, and social services; and support resilient communities through the #BuildFor2030 Initiative.
