"Ghosts and the Afterlife: A Scientific Investigation" took 12 years to complete with the production being delayed almost an additional two years as a consequence of the shutdowns during the Covid-19 pandemic. Virginia Film Company provided support for the production by filming expert interviews on the East Coast as well as flying to England to investigate the subject matter of the afterlife at the Arthur Findlay Institute while Hollywood Picture Studios did all the production and post-production work on the West Coast. Vision Films is now the exclusive distributor for "Ghosts and the Afterlife."
