

Securely Swiss™ a New Website launched by Swiss Security Solutions LLC

Swiss Security Solutions launched a new website "Securely" to simplify ordering and booking of solutions for companies, organizations and individuals worldwide.

ZÜRICH - CITY, SWITZERLAND,
December 18, 2022 /

EINPresswire.com/ -- We are more than happy to announce the launch of our new website, [Securely Swiss™](https://www.securelyswiss.com). With a mission to make the brand-new website Securely Swiss™ as a faster, easier to navigate, and more user-friendly solution for Swiss Security Solutions LLC customers, enabling them to order or book services and solutions. Our amazing staff have spent more than three months' days & nights building the new design and new website from scratch, and we are delighted to officially announce the launch on December 19th 2022.

Reduce last mile costs, time loss, back-and-forth emails, save your energy, and make branded customers experiences with customer excellence from Swiss problem solvers at Securely Swiss™.

What's new on the website Securely Swiss™?

As a leading Security, Safety and Intelligence company and advisor, it's important for us to make information regarding our solutions, services features and services easily accessible for our current and prospective clients. You will find useful information about our solutions on the homepage of our website, with how we have helped over a thousand clients across a myriad of industries to create value. Amongst the new features, the site contains a powerful search function to browse the information and resources. We will be constantly updating our content with up-to-date information, company announcements and share our knowledge and expertise

Securely Swiss™ Logo

Securely Swiss™ Basic Services

in the field of security, safety HSE, business intelligence, private investigations, financial investigations, [Swiss cyber solutions](#), defence solutions and consulting.

What means Securely Swiss™?

Securely Swiss™ is an Adverb which came from secure and safe and means protected in Switzerland or from Swiss protected, in a way that avoids someone or something being harmed by any risk, danger, or threat. It also means free from danger, risk or fear, as well as firmly and correctly and therefore not likely to be at Risk of Loss or any kind of danger.

Securely Swiss™ Switzerland

What about the corporate website?

“

Life goals of everyone on this planet are simple - Securely (Security & Safety), very first after physiological needs like: air, water, food, sleep, and shelter.”

Bojan Ilic, M.Sc. Securely Swiss™ president of the Board

The corporate website www.swiss-security-solutions.com will be updated, but it will keep the corporate design, as this kind of websites are still providing more information about a company, solutions and services as ordering and booking websites as Securely Swiss™. This website will be active at the same time as www.securely.swiss, and we see no technical or other problems with this decision.

Invitation for visitors and what to expect?

Securely Swiss™ has invited the visitors to visit our home page and our News & Blog Section, as well as other so-

called services and solutions sections. Our new website, Securely Swiss™ will grow daily, as we would like to expand the services as well as explanations to those services and solutions. This will help customers to understand what they get as a service or solution.

Swiss Services and Solutions for Global and Local Customers

Global and Swiss Customers may expect from Securely Swiss™ providing following services and solutions: Security, Protection, Safety HSE, Business Intelligence, Private Investigations, Financial Investigations, Due Diligence, Business Control, Cyber Investigations, Cyber Security & Safety, DarkNet Intel, Compliance/Sanctions/AML Intelligence, Defence solutions and Defense consulting.

Securely Swiss™ Value - Corporate Sustainability & Social Responsibility (CSR)

At Securely Swiss, our main goal is not only to protect our brand reputation, but to actively take part in preserving our planet. We are proud to follow UN Sustainable Development Goals (SDG)

to achieve a better and a more sustainable future. We aim to shed a light on the environment-friendly solutions which expand access and elucidate all the possibilities moving forward. Furthermore, we emphasize on green innovation and technology which provide sustainable insights to business, private and UHNWI decision-making. We believe that it is our corporate social responsibility to support, connect and push boundaries. Beyond complying with government regulations, Securely Swiss supply chain traceability technologies bring speed, efficiency, flexibility, and reliability across the entire value chain — and, ultimately, ensures that every customer gets the services, solutions and products they need and when they need them, safely and securely.
