Flying Cars Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026

As per The Business Research Company's "[Flying Cars Global Market Report 2022](#)", the flying cars

“

Flying Cars Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026”

The Business research company

market is expected to grow from \$34.41 million in 2020 to \$52.20 million in 2021 at a compound annual growth rate (CAGR) of 51.7%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The flying cars market is expected to reach \$330.94

million in 2025 at a CAGR of 58.7%. The increase in demand for environmentally friendly transportation will propel the growth of the flying cars market during the forecast period.

Key Trends In The Flying Cars Market

The rapid adoption of advanced technology is shaping the flying cars market. Major companies operating in the flying cars sector are focused on adopting advanced technology such as the fast-developing distributed electric propulsion (DEP) technology which plays a role in efficiency, helps with quieter take-offs, and hovering.

Overview Of The Flying Cars Market

The flying cars market consists of sales of flying cars by entities (organizations, sole traders, and partnerships) that is a type of vehicle that can function as both a personal road vehicle and an aircraft. Flying cars also known as hover cars, usually use rotors instead of wings and are smaller than a commercial aircraft, and have lower emissions.
