EINPresswire.com/ -- With so many popular and in-demand vehicles releasing soon, a shortage of resources has caused waitlists for cars to become more popular than ever. The Ford [E-150](#) Lightning is one of the most anticipated pickup trucks to be announced. With new features, intelligent systems and the durability one expects from an F-150, over 200,000 people have joined the waitlist.

Though the new Lightning is in high demand, manufacturing can't keep up. Many waitlist members could wait up to two years before getting their hands on the all-electric F-150. Customers on waitlists for cars can use this period to their benefit.

[savings.club](#) is finally offering a way for eager customers to pay off their car before it even arrives. The club allows members to join others who are saving money and contributing to a common fund. Each member receives a voucher based on how well they keep up with club payments.

With savings.club, anyone can buy a car with no money down. Without credit checks and pre-qualifications getting in the way, savings.club has finally made car financing fair, inclusive and accessible. The club is all-online, meaning anyone with a mobile phone can join and get started.

If a member plays their cards right, within two or three years, they'll receive a credit voucher to buy any car of equal value.

People that start saving now, will likely be able to go to any dealer to purchase the Lightning when it releases. By saving with other aspiring car owners, anyone can buy a new car with no money down. Instead of wasting time while waiting, people can save to ensure they have enough for any vehicle they've been waiting for. For decades, alternative car financing options have been limited. savings.club is pioneering in vehicle financing by letting anyone save up to buy a car with no money down.
