

CA Partners Offers to Help Medical Device Companies Make Better Hiring Decisions For Open Job Roles

A member of MRINetwork, the recruiting firm provides excellent talent solution to companies looking for qualified and experienced candidates for key positions

ST. PETERSBURG, FLORIDA, UNITED STATES, December 20, 2022

/EINPresswire.com/ -- CA Partners, a prominent recruiting firm operating in the medical device and biotech industry, has recently offered to help client companies improve the quality of their hire with its outstanding talent

solutions. With close to three decades of experience in recruitment, and an extensive understanding of the medical device industry, the firm specializes in the recruitment of profiles with qualifications and qualities that match the specific needs of clients. With this new announcement, the firm aims to streamline the hiring process of medtech companies and minimize the risk of incurring the [astronomical cost of mishires](#).

CA Partners employs a proven, time-tested methodology to identify and recruit talents that meet the needs of clients' open job roles. The firm is well connected throughout the medical device community and It maintains a nationwide network of top-performing professionals. This, combined with its robust recruitment process allows the firm to make thorough searches for fitting candidates for better hiring decisions. CA Partners has an impressive record of numerous successful recruits and has placed highly qualified professionals in all top thirty medical device companies in the country.

The recruitment firm offers its staffing services to companies of varying sizes ranging from mid-tier specialty enterprises to large international corporations. It specializes in recruiting stand out talents working in the field of quality assurance, engineering, marketing, new product development, business development, and operations management within the medical device and biotech industry.

CA Partners provide flexible staffing solutions to address the specific employment needs of clients. From temporary contract, temp-to-hire agreement, to permanent employment, the firm gives both its client companies and professionals the flexibility to work out employment contracts that fulfill their needs.

Speaking about the need for competent and well-qualified candidates in the medical device industry, the firm's CEPO Chris Arnold said, "Companies in the life science industry looking to reinvent their traditional business and operating models need world-class talent. Integrating the latest technological developments in the production process of medical devices is not enough if there are no component professionals to maximize their capabilities. At CA Partners we understand the challenges faced by companies in the industry, and we provide solutions with our recruitment services."

About CA Partners: CA Partners is a recruitment firm that operates in the medical device and biotech industry. Affiliated to MRINetwork, it is one of the top recruiting organizations in the country with almost three decades of experience.
