the exterior wall systems market is predicted to reach a value of \$194.35 billion in 2022 at a compound annual growth rate (CAGR) of 6.33%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, affecting many markets across the globe. The global [exterior wall systems market size](#) is expected to reach \$292.28 billion in 2026 at a CAGR of 10.74%. The growing demand for green buildings is contributing to the growth of the exterior wall systems global market.

Key Trends In The Exterior Wall Systems Market

Product innovations are a key trend gaining popularity in the exterior wall systems market.

Companies in the market are launching new, innovative products. For example, in March 2021,

DuPont, a chemical company based in the United States, introduced the new DuPont™ Tedlar® polyvinyl fluoride (PVF) film for laminating exterior wall and roofing panels. Similarly, in February 2019, DuPont announced the launch of DuPont Tyvek DrainVent Rainscreen to provide advanced protection against moisture damage in exterior wall systems.

Overview Of The Exterior Wall Systems Market

The exterior wall systems market consists of sales of exterior wall systems by entities (organizations, sole traders, and partnerships) that are used as an envelope to an outer wall of a building to protect the covered interior from the external environment. An exterior wall system is the main concept in building design and construction that creates a wrapper around the masonry structure to protect it from environmental influences.
