Navigating Cancer's Digital Oncology Solution, Navigating Care, Earns ONC Health IT Certification from Drummond Group

SEATTLE, WA, UNITED STATES, December 21, 2022 / EINPresswire.com/ -- Navigating Cancer's Navigating Care® patient portal has achieved Office of the National Coordinator for Health Information Technology (ONC-Health IT) 2015 Edition Cures Update Health IT certification via Drummond Group LLC, an Authorized Certification Body (ACB). The stamp of approval designates that the software delivers the required functionality in support of enabling eligible providers to meet the requirements of various regulatory programs that involve the use of certified electronic health records (EHR) technology.

> **Our solutions are designed to help oncology providers effectively care for patients and streamline workflows while also successfully meeting complex regulations that can impact practice performance."**
>
> *Michael Graff, Chief Product Officer at Navigating Cancer.*

"This certification demonstrates Navigating Cancer's enduring commitment to oncology patients and those who care for them by providing timely access to their important health information and relevant education," said Michael Graff, Chief Product Officer at Navigating Cancer. "Our solutions are designed to help oncology providers effectively care for patients and streamline workflows while also successfully meeting complex requirements and regulations that can impact practice performance."

To earn the certification, Navigating Care was tested to be in accordance with applicable standards and certification criteria put forth by the U.S. Department of Health and Human Services (HHS).

With more than 20 years of testing experience across various industries, Drummond brings a high level of technical expertise to this process. Since becoming an ONC-ACB in 2010, Drummond has conducted more than 3,000 health IT tests and certifications.

Navigating Care, which met the requirements for 2015 Edition Cures Update, is a patient portal solution for community oncology clinics that gives patients a personalized and secure digital experience to access their health records and seamlessly communicate with their care team.

Our suite of services provides digital health solutions that improve the lives of cancer patients.

About This Certification
