

Dr. Yassir Attalla introduces the HOLLYWOOD SPECTRA LASER PEEL that restores skin's natural, radiant glow

Hollywood Spectra Laser Peel skin treatments, now available in the Downriver area, make it possible to have a more youthful and bright appearance.

SOUTHGATE, MI, USA, December 21, 2022 /EINPresswire.com/ -- Dr. Yassir Attalla announced the arrival of the Hollywood Spectra Laser Peel to the Downriver area at Attalla Internal Medicine and Aesthetics in Southgate.

Hollywood Spectra Laser Peel skin treatments make it possible to have a more youthful and bright appearance without worrying about missing work or social events. Older, traditional laser procedures can leave the skin red, irritated, and scaling for weeks. This new innovative treatment is comfortable and quick (only 15-20 minutes), and patients can immediately return to normal daily activities.

Dr. Yassir Attalla, Medical Director at Attalla Aesthetics in Southgate

"We are thrilled to be the first and only provider in the Downriver area to offer the Hollywood Spectra laser peel," said [Dr. Attalla](#), Medical Director at Attalla Aesthetics. It's been the leading anti-aging treatment in Hollywood for years due to its instant results, zero post-treatment downtime, and celebrity fan base including Jennifer Aniston, Angelina Jolie, and Kim Kardashian."

The Hollywood Carbon Peel is a no-downtime procedure that helps rejuvenate the appearance of aging, damaged skin with no downtime compared to traditional laser treatments.

The Hollywood Spectra Laser Peel can quickly improve the overall quality of the skin's complexion. First, a topical lotion is applied to the face, followed by the laser, to stimulate skin cells and begin the process of exfoliation. A series of treatments (average is 3) are recommended to optimize the results.

Nine Amazing Hollywood Spectra Laser Peel Benefits:

1. Improved skin tone & texture
2. Glowing skin
3. Smoother, softer feel
4. Reduction of fine lines
5. No downtime
6. Stimulates collagen
7. Very comfortable procedure
8. Safe for most skin tone

“

It's been the leading anti-aging treatment in Hollywood due to its instant results, zero post-treatment downtime, and celebrity fan base including Jennifer Aniston, Angelina Jolie, and Kim Kardashian.”

Dr. Yassir Attalla

9. Pore reduction

The Hollywood Spectra Laser Peel achieves its results through specialized laser energy, which reduces skin pigmentation, improves skin tone, reduces oil production, minimizes pores, reduces fine lines, and generates new collagen.

The laser energy works in two ways; first, it gently targets the melanin (pigmentation) in the cells, breaking it up for your body's natural removal processes, and second, it heats deep in the dermis causing the skin to contract and

stimulates collagen. Because the treatment is gentle, multiple passes are needed to obtain optimal results.

“Celebrities often use this peel in preparation for the red carpet, which is where it got its name, but has most recently become widely popular among brides, patients who have an event to attend, or patients who are looking for more youthful skin and an improved complexion,” added Dr. Attalla.
