Nutritional Analysis Global Market Report 2022 -
Market Size, Trends, And Global Forecast 2022-2026

As per “The Business Research Company's "Nutritional Analysis Global Market Report 2022”, the nutritional analysis market is expected to grow from \$4.93 billion in 2021 to \$5.30 billion in 2022 at a compound annual growth rate (CAGR) of 7.67%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, affecting many markets across the globe. The nutritional analysis global market is expected to reach \$7.22 billion in 2026 at a CAGR of 7.94%. The increasing consumer awareness and change in preference for consuming healthy food is expected to propel the growth of the nutritional analysis market.

Key Trends In The Nutritional Analysis Market

Technological advancements are a key trend gaining popularity in the nutritional analysis global market. Stakeholders in the market are focusing on developing equipment and platforms that

enable better tracking and analysis of nutritional content.

Overview Of The Nutritional Analysis Market

The nutritional analysis global market consists of sales of nutritional analysis products and services by entities (organizations, sole traders, and partnerships) that are used to determine the nutritional content of foods and food products. Nutritional analysis is used to analyse the nutritional content present in food products and understand the chemical composition, processing, quality control, and contamination of food. The nutritional information includes a range of information such as calories, vitamins, and minerals, thus allowing consumers to make informed purchases.
