

Game Changer of the Year Walter Schindler

2023 Will Be His Eighth Consecutive Year for This Award

NEW YORK, UNITED STATES, December 22, 2022 /EINPresswire.com/ -- "Only disruptive technology can bridge the growing gap between the supply and demand of energy, water, food, and other global resources."

Only disruptive technology can bridge the growing gap between the supply and demand of energy, water, food, and other global resources."

Walter Schindler is being honored as the "Game Changer of the Year – 2023 – USA." This Award has resulted from the voting of over 538,000 readers in over 163 countries worldwide, a rigorous process managed by several international publishers.

This Award confirms his stature as a leading global advisor to assist clients at the intersection of law, business and

investment and with international matters and sustainability. He also advises his clients regarding private equity, venture capital, private credit and impact investing strategies.

Walter Schindler (<https://walterschindler.com/>) has won more international awards for his sustainable investment vision and game-changing achievements than any other American. He has been selected by international judges based in London "Game Changer of the Year" for each of the last eight (8) years. And he has been honored at private receptions and dinners by the Royal Families of the United Kingdom and Liechtenstein and by the World Economic Forum.

In 2020 Walter accepted the invitation of Forbes Magazine to join the Forbes Business Council and has thus far published twelve (12) articles in Forbes.

Of special note: Walter now serves as Chairman of the Advisory Board at CBS Inc. (<https://www.shopsocialscenes.com>), the emerging powerhouse of e-commerce technology.

Also serving on the CBS Advisory Board is Tom Fisher, who has an accomplished international track record of developing, implementing and delivering high-tech solutions across Cloud, Digital, eCommerce, Software-as-a-Service (SaaS) and other major sectors.

A few notable positions confirm Tom's legendary role as the "Godfather" of cloud computing:

eBay Acting Chief Technology Officer (CTO)
Oracle Senior Vice President & Global Commercial Cloud Services CIO
Qualcomm Vice President
Gateway Chief Architect & Vice President, Global Architecture & Security
MapR Technologies CTO & Executive Vice President
President, Forbes Technology Council.

Finally, Schindler adds with emphasis: "I wish to acknowledge publicly with deep gratitude the encouragement of H.R.H The Princess Royal (Princess Anne), who held a private reception and dinner in my honor in November 2016 at St James Palace. She then stated her generous words 'to encourage you' when I asked her why she organized the event. And in 2017 she organized another special event at Marlborough House for leaders of the British Commonwealth and included me as her special guest."

Selfless devotion to the future of a better world is the essence of nobility.
